

# History and Values

Roma Tre University is a **young university thought for young people**. Founded in 1992, it has rapidly grown both in terms of students and courses offered. It has gained an excellent rating among the most prominent academic rankings, especially within the younger universities.

Roma Tre University is organized in 13 departments. A dynamic, modern and international university that has been immediately identified as the vital lever of the urban development of the capital, within which it is now deeply rooted, contributing in changing the city's identity with a persevering process of restructuring and re-using abandoned industrial buildings, converting them into factories of knowledge and research.

Among its founding values, Roma Tre assumes the **promotion and organization of high-quality international research**, the **excellence in advanced education** as well as in the **development and dissemination of knowledge**, the **environmental protection**, the **international solidarity**, the principles of gender equity and the evaluation and recognition of merit.

Teaching and research, in all disciplinary areas, constantly interact and target a global world, thus promoting the upgrading and enrichment of knowledge; they combine their action with the third mission, considered both as technology transfer and as a projection of advanced education activities on the territory.

The international dimension is considered a strategic aspect for the University, which adheres, among others, to the inspirational principles of the Magna Charta Universitatum and identifies itself in the principles and tools of the European Research and advanced education Area.
